

POLS201 Spring 2019

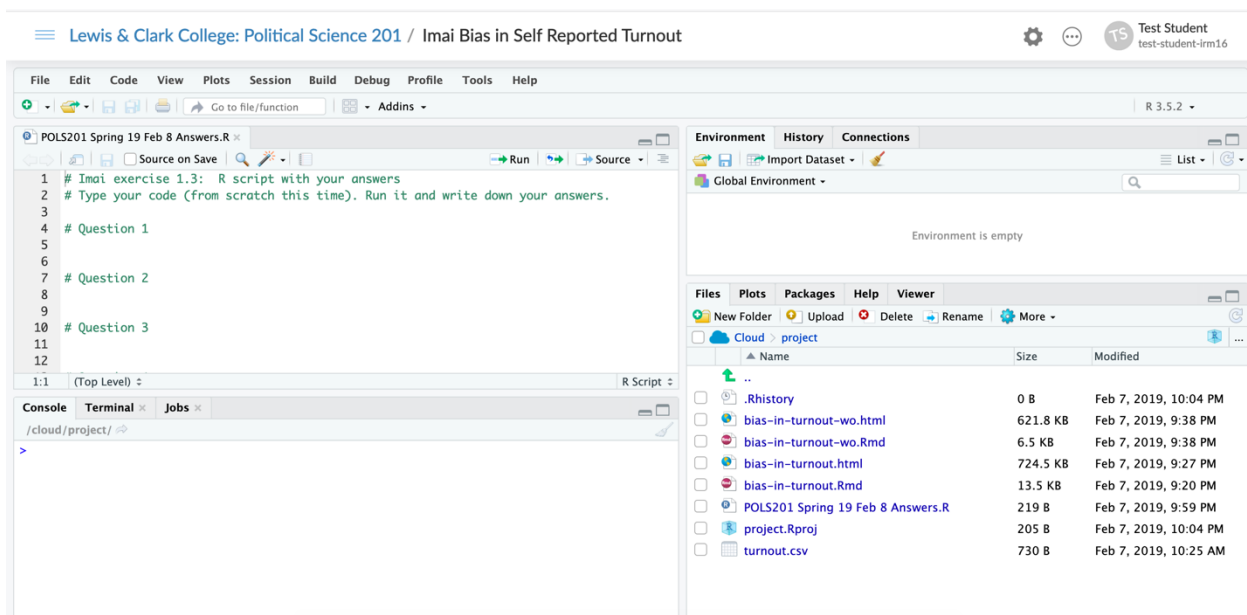

February 8, 2019

Directions for Imai Exercise 1.5.1 Name: _____

Bias in Self Reporting Turnout

We will work from the RStudio Cloud account; all the necessary documentation should be available there.

1. Log into your RStudio Cloud Account
2. You will see the Your Workspace screen. If you don't see the sidebar with RStudio Cloud at the top, click on the three bars in the upper left corner. Select the Lewis & Clark Political Science 201 space.
3. Click on the Imai Bias in Self Reported Turnout project. You'll should see this display or something similar:

4. Click on the bias in turnout wo.html file and ask to view it in a browser. Take a moment and read through it, and the six questions we will try to answer.
5. Now click on the bias-in-turnout.html file. View it in the browser, and we will walk through it together.
6. We will paste the relevant answers into the open source file (POLS201 Spring 19 Feb 8 Answers.R) and execute code as we paste it. We'll spend more time discussing the syntax and hopefully work our way to six answers.

Report your answers by hand on the reverse:

Answer 1:

Answer 2:

Answer 3:

Answer 4:

Answer 5:

Answer 6:
